# E-Ethics for E-Discovery: Considerations and Solutions for the E-Practitioner

**Course No. 1554R**

Discovery of electronically stored information (ESI) implicates a number of ethical issues for the practitioner. E-discovery raises E-ethical considerations going beyond those faced in the physical document world. In this electronic presentation the presenters will examine the seeming tension among the obligations to protect metadata and not to "mine" for metadata in relation to the E-discovery obligation not to delete metadata. The presenters will also discuss additional ethical and professional duties of the practitioner in the E-discovery context.
