RE: Insured: Stevenson Design & Development of Jacksonville, Inc.  
Our Claim Number: 1235505  
Case Number: CA 0815 Div. 55  
Plaintiffs: James T. Treace and Angeline Treace  
Your File Number: 189.09081

Dear Mr. Kallaher:

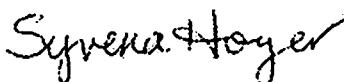

As you know, Mid-Continent Casualty Company is providing a defense to your client subject to a reservation of rights. The purpose of this letter is to request that you submit an itemized verdict form which includes questions that address these areas:

- (1) What was the date that the damage to the plaintiffs' home was first discovered or manifested.
- (2) Of the total amount of damages, how much was attributed to repair of the property as opposed to the plaintiffs' personal property.
- (3) Of the total amount of damages how much was attributed to repair or replacement of the defective work (including the costs to "get to" or "rip out" undamaged property to replace the defective work) performed by the insured or on its behalf by subcontractors as opposed to damage caused by the insured or its subcontractor's defective work.

We leave the exact way these questions are phrased up to you as the insured's attorney. Please send me a copy of the proposed verdict form you intend to use.

If you believe that you cannot ask the jury to answer one or more of these questions based upon your ethical obligation to your client, since the answer to these questions may impact your client's insurance coverage for the claims asserted against it in this case, please let me know in writing.

Sincerely,

Syvena Hoyer  
Senior Claim Representative
