

## **James Van Meter**

James Van Meter is an Aviation Practice Leader for Allianz Global Corporate & Specialty based in Atlanta. James serves as the Regional Coordinator for the Eastern Region and the Product Line Leader for General Aviation Hull & Liability. In his role as the Product Line Leader for General Aviation Hull & Liability, James serves as the Subject Matter Expert and Product Head for Unmanned Aircraft Systems.

James earned a Juris Doctorate from Southwestern Law School and is a graduate of Embry-Riddle Aeronautical University where he earned both a Master of Business Administration in Aviation and a Bachelor of Science in Aviation Business Administration. James is registered drone pilot and an active licensed pilot with Commercial, Multi-Engine and Instrument ratings. James served honorably in the United States Marine Corps and is a veteran of Operation Iraqi Freedom. James is a licensed attorney in the state of California and a licensed property and casualty insurance agent in the state of Georgia.

James is widely regarded as an expert in unmanned aircraft insurance and risk management and is frequently sought as a speaker at national conferences and in media interviews. James has recently been published in Leaders Edge magazine and has spoken at numerous conferences across the United States including: RIMS, The Aviation Insurance Association Conference, The American Bar Association Aviation Litigation Conference, and the Event Safety Alliance. James is also a founding member of the Unmanned Aircraft Systems Insurance Association (UASIA).
