**WHO IS SIRE?**

The Stewards of Indigenous Resources Endowment [SIRE] is a grassroots non-profit professional service corporation founded in 2007 by Washington State attorney Roberta Armstrong.

**SIRE'S** mission is to provide AIPRA education and quality estate planning services to as many Indian landowners as possible and the legal community who serves them.

**WHAT IS AIPRA?**

On June 20, 2006, the American Indian Probate Reform Act of 2004 [AIPRA] went into effect. Prior to the passage of this Act, the transfer of Indian lands was governed by the state law in which the Indian land was located. This Act replaces state intestacy laws when an Indian landowner dies without a will. As with any section of law, it is important for the legal community to be aware of the effects AIPRA brings.
