Hey Larry, it's Kurt [REDACTED]. I would like to talk to you about a potential lawsuit. One of our trucks broke down and then it was towed and at the time it was an engine issue when it broke down when it finally got down to Mitsubishi system sevens in Seattle was also a transmission issue so I wanted to see about maybe suing them for improper towing and the replacement of the transmission It's like \$6300 to put new transmission in the truck plus you know 1000 some dollar \$2000 in tow bills anyway please give me a call or send me an email with one. I can call you thank you bye hope this catches you well
